50 Ways to Green Your Home and Save \$\$\$ in Greater Vancouver

→ LOCATION

Choosing Where You Live

1 Green neighbourhoods
Buy a home in a
neighbourhood close to work,
transit, shopping, community
centres and other services.

2 Transit-oriented density (TOD)

New, compact, complete green neighbourhoods are being built with transit as their focus. Instead of owning a car, join a car share cooperative, take transit, cycle or walk.

3 If it's features such as a gym or pool you want, buy a strata unit with these amenities and share costs.

4 Score your location
Walkable neighbourhoods
offer health, environmental,
financial and community benefits.
Enter your address or the address
of a home you want to buy at
www.walkscore.com. This tool
calculates a walkability score
based on the home's proximity
to transit, grocery stores, schools
and other amenities.

→ HOME IMPROVEMENT Heating and Cooling

5 You choose, you save <u>LiveSmart BC</u> offers a variety of incentive and rebate programs.

6 Install a high-efficiency heating system

Make sure it's ENERGY STAR rated.

7 Weatherize your home From windows to doors to

insulation and <u>weather stripping</u>. Don't forget to <u>seal your ducts</u>.

8 Insulate your pipes
It will prevent costly heat
loss. Here's how.

9 Insulate your hot water heater

Buy a pre-cut jacket or blanket for \$10–\$20. You'll save up to 10% on heating costs. <u>Learn more.</u>

10 Install a programmable thermostat

Set it lower at night and during the day when you're away. Lower the temperature. Each degree below 20C saves you 3-5% on heating costs.

11 Clean your furnace filter

This optimizes performance.

12 Get the most from your fireplace

Here's how to make it efficient.

13 Use curtains
In the daytime during summer, close to help cool your home. Learn more.

14 Install ceiling fans
The energy it takes
to run a fan is less than an air
conditioner. In summer, make
sure the fan's blades are rotating
anti-clockwise for a cooling
effect. In winter, the fan should
be running clockwise, pushing
the warm air down. Learn more.

15 Use an electic fan Skip the air conditioning. On hot summer days, place a bowl of ice in front of a fan to cool down.

16 Fix leaks. Fix leaking taps

One drop per second equals 7,000 litres of water wasted per year. <u>Learn more.</u>

17 Install a filter
Stop buying costly
bottled water which adds to the landfill.

→ LIGHTING

18 Change your light bulbs

Lighting accounts for 15% of your energy bill. Replace old bulbs with ENERGY STAR rated bulbs. Check for <u>rebates</u>.

19 Motion detector lights

Turn lights off outside when not in use.

20 Keep it dark
Light pollution is an
increasing problem. Turn off
outdoor lights to save energy and
encourage night life such as bats
and frogs. A single bat can eat
tens of thousands of mosquitoes
nightly. If you have safety
concerns, use motion detector
lights – which come on, only as
needed.

Holiday lights
Use LED lights.

→ KITCHEN

Replace your fridge
An old energy guzzling
fridge costs you about \$85 a year
to operate. Replace it with an
ENERGY STAR fridge. BC Hydro
will rebate you \$50. BC Hydro will
also not only come and pick up
your old fridge free-of charge,
they'll give you \$30.

Replace your dishwasher

Buy an ENERGY STAR appliance. BC Hydro will <u>rebate you \$25</u>.

24 Replace your freezer
Buy an ENERGY STAR
appliance and BC Hydro will
rebate you \$25.

→ BATHROOM

25 Low flow shower
Hot water accounts
for 25% of your energy costs.
Showers can be the largest
single contributor to overall hot
water use in a home, accounting
for 15% of total household
energy use. Save with a low-flow
showerhead.

26 High efficiency or dual flush (you choose the amount of water used) toilets

These are now required in new homes because of water savings.

→ OFFICE

27 Use smart strips
Also known as power bars, this lets you power off all equipment at the same time.

28 Buy energy smart electronics

Buy energy smart electronics and save.

29 Recycle your old electronics
Here's how.

→ YARD IMPROVEMENT

30 Conserve water
Fresh water comprises
just 3% the world's total water
supply, so conserve. Get a rain
barrel and harvest water you
can use in your garden. Local
governments such as Vancouver
and Richmond will subsidize the
cost.

31 Drip irrigation
It saves water compared to sprinklers.

32 Elbow grease
Don't power wash your
driveway. Sweep it or use a scrub
brush and pail.

Less lawn
Lawns waste water.
Instead conserve and beautify
using indigenous plants such as
ferns, tiger lilies and hostas.

Grow your own
How much more will
you spend on food this year?
Even a few miniature fruit trees
and a small vegetable garden
in a raised bed or in containers
will help keep you healthy
and save you dollars. Lettuce,
spinach, tomatoes, cucumbers,
strawberries and blueberries
thrive in our climate. Here's how.

Preserve your produce

Invest in home canning jars and equipment and a small freezer and enjoy your produce year round – at considerable savings. Here's how.

36 Bee friendly
We need bees to
pollinate, so get a few plant beefriendly annuals such as asters,
marigolds, sunflowers, zinnias;
or perennials such as clematis,

foxgloves, hollyhocks, roses or shrubs such as Buddleia.

37 Go chemical-free "Get rid of weeds without using chemicals that harm us and our pets," advises REALTOR® and Richmond City counselor, Derek Dang, who led the way to a bylaw banning cosmetic pesticides. His suggestion, "Use dish detergent or weed by hand."

Plant fruit trees
They'll give you shade
and fruit. Plum, apple, pear and
more.

39 Compost
It will make your garden
grow and divert waste from the
landfill.

→ GREEN AND CLEAN

40 Clean green
Vinegar, baking soda
and lemons clean as well as
expensive, chemical-filled
cleaning supplies for a fraction of
the cost.

41 Green Laundry detergent

Use phosphate-free, biodegradable detergent.

42 Upgrade your washing machine

Replace your old washing machine with an ENERGY STAR washer that gets clothes clean using cold water and BC Hydro will rebate you \$75. Wait until you have a full load instead of washing clothes as you need them. Clean your lint trap after every use.

43 Install a clothesline
Dryers use a large
amount of energy.

44 Get a rack If your neighbourhood or strata prohibits clotheslines, buy a small drying rack.

→ LIVING GREEN

45 Recycle
Recycling keeps
materials that can be recovered
(paper, glass, metals, plastics,
food etc) out of the landfills; and
in the case of organics like paper,
food, yard waste, it significantly
reduces greenhouse gases from
landfills. Learn more.

46 Buy local
Buy local, organic and
fair trade food. Your food doesn't
travel long distances, you support
local farmers and the local
economy and you consume less
pesticides.

47 Don't use paper or plastic

Use cloth bags when you shop or reuse your plastic bags.

→ FINANCING

48 Borrow green
Most financial
institutions offer "green"
mortgages, including:

- BMO Eco Smart Mortgage offers home buyers a 3.89% rate on qualifying green properties.
- RBC Energy Saver™
 Mortgage gives home buyers a \$300 rebate for a home energy audit and a five-year 4.34% rate.
- Vancity offers a <u>Bright Ideas</u>
 <u>Home Renovation Loan</u> at prime +1% to home buyers and owners making green renovations.
- CMHC offers a <u>10%</u> <u>Mortgage Loan Premium</u>

refund and possible extended amortization for buyers purchasing an energy-efficient mortgage or making energy saving renovations.

49 Loan program
Pay-as-you-Save (PAYS)

loan program will help home owners and businesses finance energy efficiency improvements through a loan from BC Hydro or FortisBC. Pilot programs starting in November 2012 in certain BC locations.
